3. Arrive at the significators of each bhava i.e., bhava lord, planets in the stars of bhava lords, Occupants and planets in the stars of occupants.
4. Mark aspects on each bhava cusp, and the planets in each bhava.
5. Also observe and mark the conjunctions, if any, in each bhava.

7. Arrive at the **ruling planets** at the time of judgment. Besides the sign, star and sub lords of lagna at the time of judgment also note the sign, star and sub lords of the bhava under study. i.e., if the matter of study is "JOB" - note the signifiers of 10th bhava, and 6th bhava.

| Ruling Planets - At Birth Time | | | |
|--------------------------------|-----------|-----------|----------|
| | Sign Lord | Star Lord | Sub lord |
| Lagna sputa | | | |
| Moon sputa | | | |
| Day Lord | | | |

|---|-----------|-----------|----------|
| | Sign Lord | Star Lord | Sub lord |
| Lagna sputa | | | |
| Moon sputa | | | |
| Day Lord | | | |

8. Note the dasa/bhukti/antara lord's natal positions and the transitory positions.
9. Arrive at the signifiers, - common and fruitful signifiers from the ruling planets of natal chart and of judgment time.

B. Analysis for Study of Chart

10. Check whether the expected event is **promised or not** by connecting the sub lord of the bhava under study with the other bhavas relevant for the matter. i.e., to check the matter of marriage - check whether 7th cusp sub-lord is connected to 2 / 7 /11 bhavas. Any connection of 7th cusp sub-lord indicates that the marriage is promised. Here consider the harmonious and disharmonious bhavas relevant to the subject under study. For example see the following table.
11. Once the fructification of event (say marriage) is promised examine the chart and gochara for the likely time of fructification of the event. Also examine the connection of signifiers (of bhava under study) to negative houses.
12. To check the timing of event - Mark sensitive points i.e., natal positions of d/b/a lords, stars of d/b/a lords, and Fortuna.
13. Note the likely time of transit of D/B/A lords / luminaries on the sensitive points.
14. While examining the transit of planets -for timing of event – keep in mind that some subs are shorter (i.e., Sun, Ketu, etc.,) and some are longer (i.e., Venus, Saturn, etc.,). So the duration of a transiting planet varies as per the length of the sub, as well as the speed of a planet.
15. Rasi tatwa of signs (movable, fiery etc.,) of signifiers under study are posited are to be invariably considered to arrive at the quality of events likely to occur. Graha tatwa plus bhava tatwa is the starting point of study and the findings are to be concluded / fine tuned with the background rasi tatwa.

Events are coiled as per natives karmic decisions of past and recoiled in the present times with transiting planetary influence.*

16. Examine and take into account the planets closely connected to the bhava cusp or rasi borders – either applying / separating aspect – i.e., before or after the bhava cuspal point / rasi borders.
17. All aspects among planets are considered on sign to sign basis in Rasi chart.
18. Bhava cuspal points are the beginning points of the bhava. A bhava will be spread into two signs - and acquires two qualities among three fold and four fold divisions of natural zodiac i.e., movable, fixed etc.. Or fiery/earthy etc., The bhava is to be examined as per the beginning of the bhava cuspal points while the planets are to be examined as per the sign occupied by them. For example, third bhava is spread in Gemini and Cancer signs and planet x is posited in cancer sign. Third bhava is to be examined and attributed the common sign quality and airy nature of Gemini sign while the planet x posited in cancer is to be judged to give the result of third bhava matters and the movable and watery etc., nature of cancer is also to be attributed to that planet.
