POSITIVES side of 8th HOUSE

Every Astrologer has started his studies in Astrology when 8th house in his birth chart is activated. Because 8th house highlights astrologer's hidden talents to diagnose the hidden causes of others' problems. Study of every birth chart is an item of research at every time because each birth chart is backed by a different unique Soul.

Introduction

- Astrology is an age old subject to understand human behavior through birth chart. But, in reality, human behavior is differing from what is indicated in astrological books.
- This topic is intended for a better guidance to study birth chart.

Need of a Holistic approach

- ❖ *Life of any body is not like an edited and prerecorded MOVIE show to predict life events in advance. Careful and conscious study - with divine blessings - only can reveal the trend of any likely life event.*
- Generally accepted dictum is that no sign / house / planet are totally BAD or GOOD to the native. No Planet works in isolation. All planets, at all times, works in a concerted manner like in a musical orchestra. At any given time the native gets a package deal of all planets with a leadership of one or more planets because of its D B A lordships or its transiting position. For a detailed study one need to make a holistic approach to the birth chart.
- Every planet and every house is capable of giving either positive or negative or a mixed effect. Positivity or Negativity side of a planet or house is, always, with reference to the house under study, at a given time.
- In decoding a horoscope - natural and functional benefic and malefic natures are dealt with.
- Any house is studied with reference to the planets connected to that house and to the houses that are harmonious and detrimental to the house under study.
- For a holistic approach the entire planetary configuration, in a birth chart, is to be considered. Innumerable combinations and permutations of Planet(s) and Houses(s) are capable of aggravating / regulating / modulating the good and bad effects of a planet or a house under study.

❖ Study of Eighth House.

- Eighth House is known for Longevity, obstacles and transformation. Indicating what must be changed, purification of identity and spiritual liberation of the self.

- As a “hidden house” - 8th house includes both good and bad - hidden intelligence, hidden wealth, hidden criminal desires, drug addiction, hidden diseases etc.,
- Same 8th house indicates both spiritual energy and sexual energy.
- Strength of this 8th house is for both sexual deviancy and also for kundalini rising. Reality is as per the other configuration of birth chart. 8th House is the continuum between these two points.
- Strong 8th house in a spiritual chart can also qualify native with a good tantric skills to transform sexual energy into spiritual energy. A saint is one who realized the hidden potential of Kundali through the strong 8th house.
- 8th house in birth chart indicates the potential range of kundalini strength.
- 8th house indicates the range of KUNDALI sakti and chances for its further development. This is associated with the subconscious mind (things hidden).
- Awakened Kundali with difficult energy to control is compared to Goddess Kali
- Awakened Kundali with controlled energy for peaceful living is compared to Goddess Durga.
- Awakened Kundali with full positive and creative (transformative) energy is compared to Goddess Sri MahaLakshmi, Saraswati and other forms of Goddess Mother.

- **Complicating questions in analyzing a birth chart are that...**

1) Native’s behavior is deviating from birth chart. Why and how a person deviated from birth chart. To what extent and in what direction the person is likely to deviate or deviating from birth chart is the study of astrology.

2) Why the persons differ in their behavior although the birth chart is same . i.e., Twins and Astro-Twins born at the same time have same birth charts. Twins are those born to the same mother. Astro twins are those who are born to different mothers with same birth chart.

- **Reasons for such differences are that...**

- (i) Every person is born with a SOUL in their HUMAN BODY.
- (ii) Soul is inner driver who directs the Mind’s and Body’s actions.
- (iii) Soul has an embedded program in its journey to reach Grand Soul. Those born with elevated Soul’s - due to porvaa punya - are nearer to reach Grand Souls.
- (iv) As per that Soul’s directions every native is allowed to enjoy or suffer the spiritual and material happiness.
- (v) Soul’s direction is from one’s sub conscious level and cannot be known even to the native under normal conditions.

The functioning of sub conscious mind of native - is indicated by the positive side of the 8th house - which is generally branded as bad house. Thus an attempt is made here to highlight the positive side of 8th house.
